

## REMARKS

The above amendatory action is taken to comply with the Sequence Listing requirements of 37 CFR 1.821 through 1.825. Applicants submit herewith a revised computer readable form copy of the Sequence Listing and statements that the content of the paper and computer readable copies are the same and include no new matter. The specification has been amended to provide identifiers for the sequences in the specification. In this respect, it is noted that the PRS.2 sequence on page 22, line 2 of the specification corresponds to SEQ ID NO:4. Although the sequence in the specification is given in the 3' → 5' order, in the Sequence Listing the sequence is given in the 5' → 3' direction as required by 37 CFR 1.822.

An early and favorable reconsideration of the application as amended is again respectfully requested.

Respectfully submitted,
